

Taboo Boo Hoo!

In this assignment, you are being asked to write a series of descriptions of different places or things. Each of your descriptions should be two sentences. However, there are some words you **will not** be allowed to use when writing your descriptions. They are words people would normally use when describing these items, so not being able to use these words is going to make your task more difficult. Your goal is to write your description in such a way that people would **still be able to identify** who or what you are describing. Good luck!
